Information Disclosure Statement

2. Acknowledgment is made of applicant's Information Disclosure Statements (PTO-1449), which were received by the Office on September 30, 2003, June 25, 2004, and August 25, 2004.

Oath/Declaration

3. Acknowledgment is made of applicant's Oath/Declaration, which was received by the Office on September 30, 2003.

4. Applicant's formal drawings were received by the Office on September 30, 2003 and are approved by the Examiner.

Specification

5. Applicant's disclosure was received by the Office on September 30, 2003 and is approved by the Examiner.

Allowable Subject Matter

6. Claims 1-23 are allowed.

Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance:
- Independent claims 1, 8, 19, 22, and 23 recite details regarding a head covering comprised of at least one photovoltaic cell, one non-photovoltaic cell, an inductive coil for energy transmission, and a charge controller all mounted on the head covering. However, no such references were found where these elements were all collectively found on a head covering. The closest reference that was found was by Wahlstrand et al. (US 2005/0004619). However, due to the defective filing date of this application, the Wahlstrand application could not be applied as prior art. Therefore, the Examiner deems these claims and all of their dependent claims to be allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
